The Positive Effects of Games:

The diagram features three columns, each with an icon at the top (a smartphone, a game controller, and a tablet) and a corresponding category below. The "Mental" category includes a brain icon and a bar chart showing a 20% gain. The "Physical" category includes a hand icon and a quote about surgeons. The "Emotional" category includes a heart icon and a quote about middle school students in Japan.

Category	Icon	Description
Mental	Brain	Studies showed that, on average, using academic games in the classroom is associated with a 20 percentile point gain in student achievement.
Physical	Hand	"Neuroscientists performed a study at Iowa State University that found that surgeons performed better, and were more accurate on the operating table, when they regularly played video games."
Emotional	Heart	"Middle school students in Japan who played games in which characters helped or showed affection for others, later engaged in more of these behaviors themselves."
